How to access IT systems at South Metropolitan TAFE

USER GUIDE FOR CONTINUING STUDENTS

quick guide

User guide for continuing students

Welcome to South Metropolitan TAFE

Follow these instructions if you are a continuing student and already have an active South Metropolitan TAFE email account. This is likely if you studied with us last term.

New Student Portal (Ci Anywhere) for 2019

From January 2019 MyCampus is being replaced by a new Student Portal (Ci Anywhere).

To access the Student Portal use the link on home page of the SM TAFE website.

Use your existing Office 365 password to log in to the Student Portal and enter the details below.

Your password and login details will not change if you are continuing on the same course or have enrolled in a new course.

SM TAFE student ID number

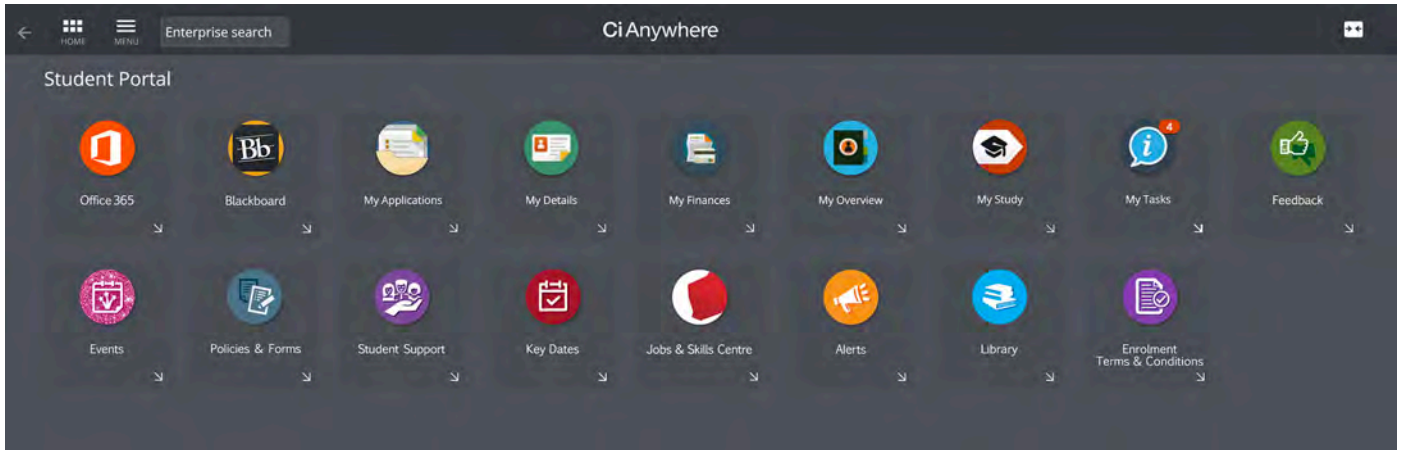

The screenshot shows the 'Ci Anywhere' login interface. At the top, it says 'Ci Anywhere' and 'Any device. Any where. Any time.' Below this is a section titled 'Log on using your details'. There are three input fields: the first is labeled 'SM TAFE Student ID number (e.g. P123456)', the second contains a masked password '.....', and the third is labeled 'ID' with a dropdown arrow. Below the fields is a 'Log on' button and a 'Keep me logged on' checkbox.

Select ID
(drop down menu)

Enter your existing Office 365 password

Student Portal (Ci Anywhere)

This is the first screen you will see when you log in as an enrolled student. For more information about Student Portal, download a copy of our Student Portal Guide from our website: southmetrotafe.wa.edu.au.

Note:

- If you want to change your password in the future it must be done in Office 365.
- Changing your password in Office 365 is required to sync your Blackboard, Student portal, wireless accounts and computer logins in classrooms and campus libraries.
